from the Mid West,

I'm building an El Toro in the Chicago Area.It will be done by Mid-May.

Who knows if I will ever race it, but I am joining the El Toro Class and my intention is to expose my young kids to the sport through the El Toro.

I don't want to build my own Mast, Boom, Daggerboard or Rudder.  
I don't think I need carbon at this stage in my El Toro career, but  
I was hoping to find some good alternatives I could get shipped out here.

Does anyone where on the West Coast have some ancient parts might be hanging out that I could purchase?

I'm a long time Lightning Sailor (Represented the USA at the Pan Am Games in 2007)  
If someone has a few used El Toro parts, I'd be psyched to locate them.  
Any advise. Thanks,,,[Bill Faude](#)
