news and comment of the El Toro Class  
January 2014 #500

## This Sunday

January 5th

### Richmond Yacht Club Midwinter Race Day #2

Can anyone catch and stay ahead of Michael? He seems to just 'sail away' from the fleet. Check your 'on-line' Sailing Instructions. The change is in the courses. The numbers now match the original course sheets that RYC has been handing out,,,for years!

The weather on the West Coast of the USA continent is still controlled by the Pacific High. This high pressure ridge is forcing the storms north and way into the heartland of the North American Continent. So look for a warm light air Sunday race.

### Lake Merritt Mid Winter Series next **Sunday** January 12th

This series is lead by a home-built wood El Toro. Mr. James Savatone is learning his lessons well. He did a masterful job of building a beautiful boat and controlling his boats' position on the race course as well as sailing fast. This is James second big win, his first was last fall's Cork

Screw Slew! We also say Tom Burden showing some of his winning style boat speed.

The Juniors are really showing the way on this Lake. There are 17 Juniors from at least three different clubs sailing.
