Phone: 425-318-6090

This classic wooden El Toro sailing dinghy has been in storage for over 25 years. A handsome little boat with plywood hull finished with teak trim. Boom, mast, tiller and daggerboard are wood and in good condition. Comes with all rigging and the red El Toro Shovel sail (but no idea of it's number). May have been built from a kit.

I purchased it a year ago with the intent of refinishing it, but other priorities have asserted themselves and I don't have the time or space to complete it. And I need a bigger boat. The boat comes with \$200 worth of epoxy and fiberglass cloth to apply (unopened and in original packaging).

LOA - 8' / Beam - 3' 11" / Hull weight - 80 lb / Mainsal area - 49 sq. ft.
